Wu Yee Childrens Services is a 32 year old provider of early education and health care to economically challenged children in San Francisco. For Wu Yee - every dollar counts.

Wu Yee

護兒兒童服務

As part of our 2008 Wu Yee Telecommunications & IT Update project, Synertel noticed that Wu Yee staff and management spent a lot of time 'hoofing it' between their 7 sites. While this was great for physical fitness, it gobbled a lot of productive time. Additionally, Wu Yee provides training for many outside child care providers – who also had to travel to a Wu Yee site for seminars and classes. Finally, Wu Yee's lone IT resource was also logging a lot of miles traveling between sites to do troubleshooting and training.

SynerTel suggested that a TurboMeeting Conferencing Server could save Wu Yee significant time and money. TurboMeeting allows Wu Yee to have virtual hosted meetings – sharing documents, powerpoints, virtual white boards, even video – without having people leave their desks. Linked with a free, complementary audio conferencing service, TurboMeeting provided an efficient and flexible way for staff, management, and even outsiders to meet – whether scheduled or on-the-fly – without having to travel.

TurboMeeting can be used in several ways:

- 1 presenter, many viewers (seminar mode)
- Equal participants (brain-storming collaborative mode)
- Remote support (manipulation of a user's PC to deliver assistance, transfer files, reboot)

TurboMeeting's unique ability to deliver seminar mode *without requiring any software download* by the many participants sets it apart from subscription products like Webex and GoToMeeting. And the economics of TurboMeeting are such that most buyers recoup the investment in just months.
